Unfinished Business

Budget Update

Dr. Buscemi reported that DDSN is in a good position regarding the budget and an update was sent out and posted on the DDSN website. She explained the Senate Finance Committee did not change the House version which appropriated \$35 million to our base as recurring funds. In addition, the Senate Committee also appropriated \$11 million in one-time funds. The

gap of \$5.4 million between the \$40.4 million and the \$35 million appropriated in recurring funds is the first item that must be covered with the \$11 million, which leaves only \$5.6 million for other one-time needs. The \$5.4 million covers on-going services that the department is currently providing. A proviso that was introduced regarding the \$11 million allows us to carry forward enhanced FMAP funds and gives us guidance on what to do with the money. These one-time funds should only be used on one-time expenses. The proviso specifically mentions support of Post-Acute Rehabilitation. The proviso also specifically mentions assessment tools, a process that DDSN is exploring, that ensures consumers are being served appropriately. Dr. Buscemi also reported that DHHS is encouraging DDSN to participate in the Care Call System RFP which is consistent with the proviso. This Care Call System is an automated time record system that ensures services are being provided. Dr. Buscemi added that there are family support and respite projects in the works and this funding will allow us to continue with these projects. She also stated if needed, this funding will give us flexibility regarding the issues of the CMS administrative billing rate and OIG room and board audit that we are still facing. She stated the budget will go to the full Senate in early May.

Dr. Buscemi reported the House passed a proviso which takes all DDSN's state appropriated funds for BabyNet and moves it to First Steps. The Senate Finance' version does not transfer DDSN's money. DDSN favors the Senate Finance version. Dr. Buscemi has a letter explaining DDSN's position and will provide it upon request.

Dr. Buscemi stated in the DDSN budget request summary provided, the service provider rate increase issue has been brought to the attention of the General Assembly. (Attachment E)

On motion of Commissioner McPherson, seconded and passed, the Commission directed DDSN to participate in the Care Call RFP.

Waiver Benefit Details

Dr. Kathi Lacy explained in detail the waiver summary that was provided. Discussion followed regarding changes in services and standards in Adult Day Healthcare services and a question of whether the changes are being brought to the Commissions' attention. Chairman Huntress stated staff will get information by next Commission meeting or as much information as the timeframe will allow regarding this issue to be discussed further at that time. (Attachment F)

State Director's Report

Dr. Buscemi reported the Legislative bills introduced to remove the "R" word have passed through the Medical Affairs Committee. These bills are moving well and receiving much support and anticipates the Legislature will

pass. DDSN is changing the language in DDSN's policies, procedures and other documents and on the website because the agency is supportive of the change and to be consistent with the expected Legislative changes.

Dr. Buscemi reported a workgroup has been formed to facilitate the increased movement of individuals who want to move from the Regional Centers to the community. Additional people may be added to this workgroup as time goes on.

Dr. Buscemi stated DDSN is exploring options of using a national recognized assessment tool which is used in multiple states. The assessment tool ensures appropriate levels of services are being provided to individuals. Dr. Buscemi added that she strongly wants to move in this direction and advocates also have been asking for this. She stated more information will be provided. Discussion followed.

Dr. Buscemi stated there is some confusion about ADHC. DDSN has not changed its policy. Additional information will be coming for further clarification and will be posted on the website. DDSN has recruited two new private providers that originally only provided ADHC and have now expanded to provide day services as well.

Dr. Buscemi reported that CMS approval has been received for waiver amendments we discussed earlier in the year for the HASCI and PDD Waivers with changes effective April 1, 2011. She reminded the Commission that the amendments were of technical nature and did not change services. DDSN is still waiting to hear back on the MR/RD and Community Support Waivers.

Dr. Buscemi reported nothing has changed in writing from DHHS regarding limits on therapies. She said the EPSDT process has not changed to our knowledge.

Dr. Buscemi reported that DHHS has formed workgroups with sister state agencies to explore joint cost savings efforts. DDSN has met with them and are looking at several areas which include the transition of individuals from Regional Centers to the community and establishing a workgroup that DDSN would be part of to look at consumers who are dually Medicare/Medicaid eligible. This is a new grant. More information as we know it will be provided. DDSN has provided DHHS with comparative data for how South Carolina compares with the national average on many indicators of disability system performance.

Dr. Buscemi stated a proviso has been introduced in the Senate that proposes other state agencies contribute to DHHS's deficit management if cost savings are found. DDSN has stressed that if cost savings are found, DDSN's state funds need to be redirected back into DDSN's system to meet the needs of our consumers, for example, the waiting list.

With no further business, the meeting was adjourned by Chairman Huntress.

RE: Surplus Property – Fairfield County

Dear Ms. Catalanotto:

The South Carolina Department of Disabilities and Special Needs wishes to surplus approximately 8,406 square feet of land in Winnsboro, SC. The parcel will be sold at market value with the proceeds deposited in its capital account in accordance with applicable law. Therefore, your assistance would be appreciated in obtaining the Budget and Control Board's approval to surplus this property and to authorize the Department to sell this property for no less than appraised, market value of \$3,000 plus expenses to the Fairfield County DSN Board for the construction of a building to provide services.

For the Board's consideration, I am enclosing a plat showing the proposed surplus property. Additionally, I am enclosing an MAI appraisal of the proposed surplus property. Lastly, the Department's Commission will be voting to surplus this parcel of land at its April 21, 2011 meeting. A copy of the approved minutes of the Commission's action will be forwarded when completed.

Your assistance in submitting our request to the Board for approval is greatly appreciated. Please call me at 898-9686 if I can be of further assistance or provide additional information.

Sincerely,

Tana Vanderbilt
General Counsel

**SOUTH CAROLINA DEPARTMENT OF DISABILITIES AND SPECIAL NEEDS
BUDGET REQUEST CONSIDERATIONS FOR FY 2011 – 2012**

<u>Program Needs</u>	<u>Description</u>	<u>DDSN Request State Funds</u>	<u>House of Representatives</u>	<u>Senate Finance Committee</u>
1. Annualization of Recurring Services Funded By Proviso 90.18 and 90.21 DHHS Funding – Medicaid Stimulus	This request is to annualize the nonrecurring funding provided DDSN in the FY 2010-2011 Appropriations Act for ongoing services to individual consumers and families.	\$40,385,491	\$35,000,000	\$35,000,000
2. Community Supports in the Individual's and Family's Home	This request is to prevent unnecessary and expensive out-of-home placements by serving 1,010 individuals with severe disabilities with the supports necessary to maintain them in their homes. As of June 30, 2010, there were 1,868 consumers on the waiting list for the Mental Retardation/Related Disabilities Waiver and 369 awaiting the Head & Spinal Cord Injury Waiver for 2,237 individuals. There were also 1,278 awaiting a day support service.	\$2,354,800		
3. Traumatic Brain or Spinal Cord Injury Post-acute Rehabilitation	South Carolina needs to fully fund over time the remaining cost of post-acute rehabilitation that enables people with traumatic brain or spinal cord injuries to obtain an appropriate level of specialized rehabilitation after the injury and acute hospital stay. Currently in the state, there is a serious gap in access to post-acute rehabilitation that is specialized for traumatic brain or spinal cord injuries. The estimates based on hospital discharges are that 2,254 individuals with traumatic brain or spinal cord injuries this year will be in need of specialized post-acute inpatient/outpatient rehabilitation. The total cost of care would be \$68 million; however, \$56.5 million of this expense could be covered by private insurance, Medicare and other government reimbursements. This fiscal year, DDSN will have \$1,584,000 in one-time funding for this program. The State funding needed for the balance to cover the uninsured/underinsured and Medicaid State matching funds would be \$9,920,000 if the one-time funds are annualized. Due to the amount of funding needed, DDSN is requesting \$3,000,000 in funding at this time.	\$3,000,000		
4. Maintenance of Effort to Cover Consumers' Cost of Care	This request represents the need to provide sufficient funding as a maintenance of effort to the providers of services so that the actual cost of care can be covered. If the state's reimbursement rates do not cover the actual cost of care, eventually the local entities will have to reduce the scope and quality of care below acceptable standards, eliminate the services for which there is insufficient funding, or stop providing services. In the last three years the costs have risen with increasing cost of gasoline, oil, electricity, food, medical professionals, and other goods and services by an average of 6.3 percent. All providers are now at the point that reimbursements must be increased to cover the additional operating costs which have risen significantly. With \$82.8 million in operating expenses, the inflationary cost for the State funded portion is \$2,190,500.	\$2,190,500		
Budget Appropriations	Authorizes DDSN to carry forward one-time funds received as the result of the federal extension of the increased FMAP.			\$11,000,000
• Proviso 24.15 FMAP Extension				
• Carry Forward				
Total		\$47,930,791	\$35,000,000	\$46,000,000
